A man and a woman are lying in bed with a dog. The man is on the left, wearing a grey t-shirt, looking towards the woman. The woman is on the right, wearing a pink and white striped long-sleeved shirt, looking towards the camera. A small dog is lying on the bed between them. The bed has blue pillows and a blue blanket. The background is a solid blue color.

Central Air Conditioning Systems - Reliability

Very Good

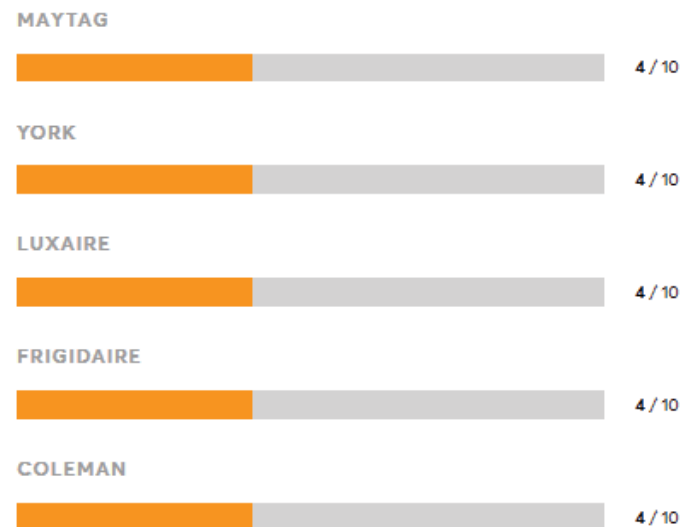

Good (Average)

Results in the following chart are gathered from Consumer Reports' 2017 Fall Survey and 2018 Summer Survey of 21,770 central air conditioning systems, owned by members who purchased a new unit between 2007 and 2018.

Our predicted reliability ratings are based on a statistical model that estimates problem rates within the first 5 years of ownership, for central air conditioning systems that are not covered by an extended warranty or service contract. We also adjust for the median number of months of use per year. The median in our survey was 5 months per year. Higher ratings are indicative of better reliability. Brands receiving a red or orange rating cannot be recommended by CR at this time.
